Wishes for our guests

- We put value on the fact that the apartment is in an immaculate condition. For this reason, we kindly ask you to treat it and its furnishings as you would your own.
- The house is a MINERGIE® - low energy consumption house. The air quality is regulated, which is why the windows and doors should be kept closed whenever possible. However, feel free to open them if you wish to.
- PLEASE retract the sun awning on the balcony at least halfway / completely in case of rain and close the windows and doors when you leave the flat.
- If something should get damaged, please let us know as soon as possible, so that we have time to make repairs or find a replacement before the next guests arrive.
- As is now the norm in the 21st century, resources such as water and energy are to be used sparingly.
- This is a non-smoking house! Please respect this and do not smoke indoors. There is an ashtray for use on the balcony, it goes without saying, that cigarette butts should not be thrown off the balcony.

Thank you for your understanding.
